Issue Name	Issue Type	Issue Priority	URLs	% of Total	Descriptive How To Fix Help URL
1 Issue Name	Issue Type	Issue Priority	URLs	% of Total	Descriptive How To Fix Help URL
2 Images: Over 100 KB	Opportunity	Medium	1	14,29	Large Images: Uncompressed images bloat pages with unnecessary bytes, so ensure images are optimised with compression, properly scaled, and using the best image format to reduce file size when
3 Links: Internal Nofollow Outlinks	Warning	Low	4	44,44	Pages that Review the use of rel="nofollow" on internal links. These might be valid to URLs that ideally wouldn't be crawled, or they could be by mistake. Remove the nofollow link attribute to import
4 Page Titles: Below 200 Pixels	Opportunity	Medium	9	100	Pages whi Consider updating the page title to take advantage of the space left to include additional target keywords or USPs.
5 Meta Description: Below 400 Pixels	Opportunity	Low	9	100	Pages whi Consider updating the meta description to take advantage of the space left to include additional benefits, USPs or call to actions to improve click through rates (CTR).
6 Images: Missing Size Attributes	Opportunity	Low	5	71,43	Image ele Define all image sizes as their native size using width and height attributes in the HTML. This allows the browser to calculate enough space for each image before it loads, avoiding large li
7 URL: Over 115 Characters	Opportunity	Low	3	12,5	URLs that Where possible use logical and concise URLs for users and search engines. However, changing URLs is a big decision, and often it's not worth changing them for SEO purposes alone. If UF
8 Security: Missing Content-Security-Policy Header	Warning	Low	24	100	URLs that Set a strict Content-Security-Policy response header across all page to help mitigate cross site scripting (XSS) and data injection attacks.
9 H2: Missing	Warning	Low	9	100	Pages whi Consider using logical and descriptive <h2>s on important pages that help the user and search engines better understand the page.
10 Page Titles: Below 30 Characters	Opportunity	Medium	9	100	Pages whi Consider updating the page title to take advantage of the space left to include additional target keywords or USPs.
11 H1: Missing	Issue	Medium	9	100	Pages whi Ensure important pages have concise, descriptive and unique headings to help users, and enable search engines to score and rank the page for relevant search queries.
12 Security: Missing Secure Referrer-Policy Header	Warning	Low	24	100	URLs that Consider setting a referrer policy of strict-origin-when-cross-origin. It retains much of the referrer's usefulness, while mitigating the risk of leaking data cross-origin.
13 Security: Missing X-Content-Type-Options Header	Warning	Low	24	100	URLs that To minimise security issues, the X-Content-Type-Options response header should be supplied and set to 'nosniff'. This instructs browsers to rely only on the Content-Type header and blo
14 Meta Description: Below 70 Characters	Opportunity	Low	9	100	Pages whi Consider updating the meta description to take advantage of the space left to include additional benefits, USPs or call to actions to improve click through rates (CTR).
15 URL: Uppercase	Warning	Low	7	29,17	URLs that Ideally lowercase characters should be used for URLs only. However, changing URLs is a big decision, and often it's not worth changing them for SEO purposes alone. If URLs are changed,
16 Canonicals: Missing	Warning	Medium	9	100	Pages that Specify a canonical URL for every page to avoid any potential ranking unpredictability if multiple versions of the same page are discovered on different URLs.
17 Images: Missing Alt Text	Issue	Low	3	42,86	Images th Include descriptive alt text for images to help users and the search engines understand them better. Where possible, decorative images should be provided using CSS background image;
18 Meta Description: Duplicate	Opportunity	Low	7	77,78	Pages whi Update duplicate meta descriptions as necessary, so important pages contain a unique and descriptive title for users and search engines. If these are duplicate pages, then fix the duplic
19 Security: Form on HTTP URL	Issue	High	3	12,5	This indic All HTTP pages with forms should be changed to HTTPS to avoid security issues for users, and problems loading in a browser.
20 Links: Pages Without Internal Outlinks	Warning	High	3	33,33	Pages that Review the pages and whether there are links in the raw or rendered HTML. Switch to JavaScript rendering mode if links are only in the rendered HTML. While Google is able to render page
21 Security: Unsafe Cross-Origin Links	Warning	Low	6	25	URLs that Consider the benefits of including the rel="noopener" link attribute on any links that contain the target="_blank" attribute to avoid security and performance issues for the users of legacy I
22 URL: Underscores	Opportunity	Low	7	29,17	URLs with Ideally hyphens should be used as word separators, rather than underscores. However, changing URLs is a big decision, and often it's not worth changing them for SEO purposes alone. If I
23 Security: Missing X-Frame-Options Header	Warning	Low	24	100	URLs that To minimise security issues, the X-Frame-Options response header should be supplied with a 'DENY' or 'SAMEORIGIN' value.
24 Content: Low Content Pages	Opportunity	Medium	9	100	Pages whi Consider including additional descriptive content to help the user and search engines better understand the page.
25 Response Codes: External Client Error (4xx)	Warning	Low	1	3,13	External U All links on a website should ideally resolve to 200 'OK' URLs. Errors such as 404 broken links should be updated so users are taken to the correct URL, or removed. A 403 forbidden error o
26 Content: Readability Difficult	Opportunity	Low	1	11,11	Copy on t Consider improving the readability of copy for your target audience. Copy that uses shorter sentences with less complex words is often easier to read and understand.
27 URL: Parameters	Warning	Low	7	29,17	URLs that Where possible use a static URL structure without parameters for key indexable URLs. However, changing URLs is a big decision, and often it's not worth changing them for SEO purposes
28 Content: Readability Very Difficult	Opportunity	Low	3	33,33	Copy on t Consider improving the readability of copy for your target audience. Copy that uses shorter sentences with less complex words is often easier to read and understand.
29 Page Titles: Duplicate	Opportunity	Medium	5	55,56	Pages whi Update duplicate page titles as necessary, so each page contains a unique and descriptive title for users and search engines. If these are duplicate pages, then fix the duplicated pages b
30 Security: Form URL Insecure	Issue	High	3	12,5	HTML pag All URLs contained within forms across a website should be encrypted and therefore need to be HTTPS.
31 Security: HTTP URLs	Issue	High	24	100	HTTP URL All URLs should be to secure HTTPS pages. Pages should be served over HTTPS, any internal links should be updated to HTTPS versions and HTTP URLs should 301 redirect to HTTPS version
